LANGUAGES

- Spanish - Native
- English - B2

PORTFOLIO

Website: <https://carlos-miguel.vercel.app>

TECHNICAL SKILLS

- TypeScript
- NestJS
- Angular
- TailwindCSS
- PostgreSQL
- Docker
- Git

METHODOLOGIES

- Scrum
- Kanban

ABOUT ME

I am a full-time or part-time freelancer with experience in web development and APIs. In my free time, I share tutorials on my YouTube channel and develop personal projects like ThemeMarket, a website for free templates for developers.

EXPERIENCE

UNIVERSITY OF CAMAGÜEY

Part-Time | January 2025- Present

- I work part-time for the University of Camagüey, maintaining the school's journal in the OJS CMS.
- I developed a website to manipulate articles and export them to HTML for publication in the journal.

NO COUNTRY TECH WORK SIMULATION

January 2025- February 2025

- I participated in the No Country Tech work simulation as a backend developer with NestJS, creating an MVP for scheduling virtual medical appointments and supporting the frontend team with Angular.

GOTOSEND

Temporary Contract | August 2024 - November 2024

- I developed the GotoSend platform for the sale of remittances, phone recharges, and gift cards, integrating payment gateways like PAYCOMET and other services.

HIGHLIGHTED PROJECTS

1- ThemeMarket: Website for free templates for developers.

[GitHub Repository](#)

2- D-Kanto: E-commerce website.
